

## The CINgroup and Best Case Combine Leading Bankruptcy Software Companies

*Joining forces to deliver innovative solutions for Bankruptcy Attorneys and Consumers*

[CINgroup](#), the leading provider of due diligence and workflow products, and [Best Case](#), the leading provider of bankruptcy preparation and filing software, announce their intention to merge and create the world's leading workflow solutions provider for consumer bankruptcy attorneys.

By combining human talent, intellectual property and capital resources, the combined company will accelerate the creation of next generation bankruptcy software solutions. The company will continue to offer a suite of industry leading products including desktop forms preparation and filing software, credit liability reports, and related solutions that are essential to bankruptcy attorneys striving to make their practices more automated, accurate, and profitable. Leveraging these strengths will also enable the company to introduce cloud-based solutions and other practice management innovations to the consumer bankruptcy market.

In conjunction with this merger, the company is announcing the appointment of Susan Berry as CEO of the combined company. Susan has served as General Manager for the Best Case business within Wolters Kluwer for the past seven years. CINgroup's current CEO Ralph Calistri, who had assumed CEO responsibilities in 2012, will return to his position on the board of directors.

"I am thrilled with the opportunity to lead the combination of two such exceptional companies," said Susan Berry. "We have the potential and capability to produce real innovation in the bankruptcy market."

"We are very pleased to have someone with Susan's background and experience leading our business," said Russ Russell, Chief Customer Officer at CINgroup. "We are eager to begin collaborating on some great new services and are excited about what the organizations can accomplish working together."
